

The Family Birth Place's New 'Tree of Life' Donor Program

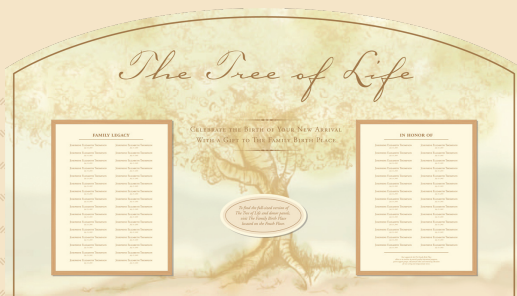

For additional information, call The Kingston Hospital Foundation at **334-2760**.

The Family Birth Place Committee has initiated a new Tree of Life donor program that provides an opportunity to celebrate each new birth or multiple generations of babies born at both Benedictine and Kingston Hospitals. This Tree of Life and Family Legacy Plaque is located on the donor wall in the entranceway of The Family Birth Place (as well as

a second display in the ED north hallway.) It displays beautiful leaves of silver and gold, donated by proud parents, family members and friends.

We are hoping you will consider supporting our effort to recognize families who have experienced the birth of their children, grandchildren and even great grandchildren at the Benedictine and Kingston Hospitals, by adding your family name to either the Family Legacy Panel or a Gold Leaf to the Tree of Life.

Your donation will help The Family Birth Place continue to provide quality educational programs, such as our parent support group and educational videos, as well as continuing education for our caring and compassionate nurses.

To find the full-sized version of *The Tree of Life* and donor panels, visit *The Family Birth Place* located on the *Fourth Floor*.
