ONCOLOGY SUPPORT PROGRAM
is dedicated to supporting people living with cancer.
OSP offers innovative programming, education and comprehensive psychosocial support. We honor the spectrum of human diversity and provide a nurturing environment that promotes dignity, wellness and celebrates the fullness of life.
— Since 1994
As we move into a new year, the staff of OSP would like to thank those who have participated in our programs whether as a patient, family member, friend, volunteer or health care professional. Together we have created a dynamic support community that offers comprehensive and integrative services to those dealing with the complexities of a cancer diagnosis.

OSP’s support groups, healing arts, wellness and educational programs continue to be offered in the warm and welcoming setting of the Reuner Cancer Support House while our social workers provide compassionate care to patients at the Mary’s Avenue and Broadway campuses. We would like to thank one such social worker who has been with our program for over five years and was previously an intern—Valerie Linet. Our dear Valerie will be leaving her position in order to have more time for her growing private practice. We are glad to say that Valerie will continue to offer her “Coping Skills Group” at OSP. Thank you, Val, for your years of dedication and your continued commitment to our community.

We also thank all of you, our generous donors and volunteers. What an amazing community in which we live and work….such talent, commitment and love directed toward those who are struggling with cancer. It is through your donations, time and dedication that cancer patients and their loved ones are able to feel encouraged and held as they face the many feelings and decisions that come their way. This year we are celebrating OSP’s 25th year anniversary. We look forward to yet another year, co-creating with all of you the amazing support community called OSP.

NURTURING NEIGHBORHOOD NETWORK
Are you facing a cancer diagnosis? Would you benefit from one-on-one support from someone who’s been through it? You might like to be matched with a Nurturing Neighbor, a local volunteer and cancer survivor trained through OSP to offer peer support. Would you like to become a Nurturer? OSP offers training and support to cancer survivors who are at least a year out from their own diagnosis and are interested in making themselves available to other members of the OSP community. Nurturers provide emotional and practical support (by phone, email, or in person) to people living with cancer and act as a bridge to community resources. Our Nurturers often tell us that they receive more from volunteering than they ever could have imagined.

For further information on linking with a Nurturing Neighbor or becoming one yourself, please contact the Oncology Support Program at (845) 339-2071 or email: oncology.support@hahv.org

Valerie Linet’s Goodbye
As some of you already know, at the beginning of February I will be leaving my position as staff social worker at the Oncology Support Program. It is a bittersweet occasion. Like many of you, I have a long history with this program, and I feel deeply connected to my OSP family. I first came here as a social work intern in 2004, when I was supervised by OSP founder, Barbara Sarah. A decade later, I returned to the program as a staff member, and have been in that role for the past five years. I have appreciated working at the Support Program for many of the same reasons that you love being a program member—the sense of community is heart-warming and nourishing; my co-workers are dedicated, creative, authentic people from whom I learn so much; the environment is humanizing, comforting, and extremely unique in a medical/social service setting; and the program members are inspiring, resilient people who teach me how to be more fully myself in the face of life’s challenges. I am grateful to have been given the freedom and entrusted with the privilege to uphold traditions as well as create new programs in the service of healing within this community. While I will pass on my responsibilities, including coordinating the Nurturing Neighborhood Network peer support program, doing visits at the Infusion Center, and facilitating the Younger Women’s Support Group to other staff members, I will continue to be a close friend to the program and offer my Coping Skills group at OSP for the foreseeable future.
The decision to leave OSP as a staff member will afford me the opportunity to consolidate my work life. It will allow me to give more energy to my private therapy practice in Woodstock and Olivebridge, which at this point, has a life of its own that is asking for more time and attention.

Heartfelt thanks to all of the hospital staff, program members, and my beloved team... Doris, Ellen, Jennifer, and Elise... for enriching my life in meaningful ways. Although I intend to remain connected to OSP and will not be going far, this is a significant transition for me personally and in the life of the OSP community. My work here has, among other things, taught me the importance of marking transitions. In this spirit, I am reminded of a Lucille Clifton poem which I think can speak to each of us, no matter what changes we might be experiencing at this moment in our own lives.

With love, Valerie

blessing the boats
BY LUCILLE CLIFTON (at St. Mary’s)
may the tide
that is entering even now
the lip of our understanding
carry you out
beyond the face of fear
may you kiss
the wind then turn from it
certain that it will
love your back  may you
open your eyes to water
water waving forever
and may you in your innocence
sail through this to that

Valentines for Volunteers
The Oncology Support staff will honor our beloved volunteers at a special evening event.
We will share a festive dinner followed by a lovely recognition ceremony.

Reiki, Natural Skin Care, Nourishing Food & Snacks

Hudson Valley Reiki Community Practitioners will offer 20-minute individual Reiki sessions. Reiki is a Japanese technique used for stress reduction and relaxation. The word Reiki comes from two Japanese words: Rei, which has meanings of Universal Energy, Spiritual Wisdom and Higher Power and Ki, which means life force energy (the same as Chi, Qi and Prana). It is based on the idea that an unseen “life force energy” flows through and around us all. Trained practitioners can generate movement of this energy resulting in an overall sense of well-being.

Reiki is administered with a person, fully clothed, lying on a massage table or sitting in a chair. The Reiki practitioner uses no touch, holding hands an inch or so above the body. Each person can choose how she or he wishes to receive the Reiki session but the overall effect is a sense of well-being.

Ujjala Schwartz, Licensed Aesthetician, will offer natural facial skin care demonstrations.

Integrative/Complementary Approaches to Cancer — A Support and Educational Group
1st Wednesdays, Feb. 6, Mar. 6, Apr. 3, May 1, 4:30-6:30 p.m.
Reuner Cancer Support House

An overview of studies indicates that around half of people with cancer use some sort of integrative or complementary therapy at some time during the course of their illness. These therapies may be used to reduce cancer symptoms or treatment-related side effects, boost the immune system, improve well-being and/or influence outcome.

OSP invites members of the community interested in integrative approaches to cancer care to share resources, experiences, identify topics of interest and LEARN, together.

Experts on selected topics will be invited to deepen group members’ understanding of specific integrative modalities. What do you want to learn more about? Join the group and give us your input!

The Oncology Support Program does not endorse any specific integrative treatment but rather serves a vehicle for education, sharing and mutual support.

Group will be facilitated by Ellen Marshall, MS., OSW-C, Director of OSP, Oncology Social Worker with Masters Degree in Nutrition/Public Heath and Tara Ryan who was diagnosed with Metastatic Melanoma and has experienced traditional treatments, immunotherapy and integrative approaches during the past 3 years.
