Health Data NY Legend

- **Hospital County:** County in which a hospital is located
- **Facility Name:** Name of hospital
- **Length of Stay:** Days a patient is admitted to the hospital until discharged
- **Type of Admission:** Description of the reason a patient is admitted to a hospital
- **Patient Disposition:** Place and level of care from which a patient is coming from
- **CCS Procedure Description:** Description of patient procedure
- **APR DRG Description:** Description of patient diagnosis related to procedure performed
- **APR Severity Illness:** Description of severity of patient diagnosis
- **Source of Payment:** Description of the primary source of payment
- **Total Charges:** Amount hospital charges for a patient procedure; this does not reflect charity care, self pay discounts or pre-negotiated rates of payment from insurance carrier which often reduce the amount a hospital collects as payment for rendered services
